SUMMARY

Software Engineering student with a strong foundation in Python, SQL, Object-Oriented Programming (OOP), and database management. Experienced in developing academic and personal projects, including database-driven applications. Passionate about software development, problem-solving, and continuously learning new technologies. Currently expanding my skills in Artificial Intelligence (AI) and Machine Learning (ML).

EDUCATION

Bachelor of Software Engineering

2025 - 2029

The Islamia University of Bahawalpur (IUB), Pakistan

GPA: 3.69 / 4.00

Relevant Coursework

Object Oriented Programming and Algorithms, Digital Logic Designs, Python fundamentals and Database Systems

SKILLS

Programming Languages:	Python, SQL
Framework and Technologies:	Django, Numpy
Tools & Platforms:	Git, VS Code, MySQL

WORK EXPERIENCE

Software Development Intern

May 2026 - Present

([DeveloperHub Corporation](#))

- Built web based applications and software projects using Python and web technologies.
- Applied programming and problem-solving skills in university projects.

Twitter Outreach

March 2026 - April 2026

- Managed and grew the company's presence on Twitter by engaging with targeted audiences.
- Created and posted engaging content, including tweets, threads, and replies, to increase visibility and interaction.

PROJECTS

Library Management System | Python, MySQL ([source code](#))

Developed a console-based Library Management System with features for book and member management, issue/return tracking, and CRUD operations. Integrated MySQL database with Python using SQL queries, input validation, and automatic inventory updates.

CERTIFICATIONS & ACHIEVEMENTS

SimpliLearn SkillUp ([Django Certificate](#))

Certified in Django REST APIs from [Simplilearn](#) with practical experience in building web applications using Python and Django.
